

Graphic Organizer Directions

Graphic organizers help students identify what is important to extract from a text as opposed to the extraneous information. Showing how information from a text is structured also facilitates student learning.

Develop a graphic organizer that you can use with a content area text to enhance your students' comprehension of reading material.

Graphic Organizer Cover Page

Name:

Subject:

Unit of Study:

Text Source to be used (copy or link):

Rationale:

Why did you choose this format for the graphic organizer? How will it enhance the comprehension of text? What makes it engaging and important?

Include all student sheets (clean copies & completed exemplars).

Use the binder checklist for specific grading expectations.
